WHO ARE FRICTION ARTS?

We are an arts organisation who create be-spoke projects responsive to community need; creating a welcoming and brave environment for discussion, to promote people's stories, understanding and culture.

We have been working from The Edge since 2007. We take pride in our approach of making work that creates a difference to people at our home at The Edge in Deritend/Highgate, in our city, our region and across the world.

We believe that the arts and creative projects provide a safe space for people, young and old, to explore the world, and their place in it. Through art we can find ways to express ourselves that may be otherwise difficult and we also believe that its a place for people to find ways to improve their wellbeing.
